

194th EAAE Seminar

Pre-seminar side event

Legumes:

Natural Pathways to Health and Sustainable Agri-Food Systems

This side event explores the potential of legumes to support the transition towards more efficient and environmentally responsible agriculture. At the same time, it sheds light on their contribution to health and their broader role in shaping sustainable and resilient agri-food systems.

9 September 2026

International Conference Center of the **Mediterranean Agronomic Institute of Chania** ([MAICh](#))

Chania, Crete, Greece

Register here
